OFFICIAL SPECIFICATION SHEET: Hyperion EV LongRange

Details

This premium all-electric SUV platform represents the pinnacle of long-range performance configurations.

Standard chassis layout incorporates adaptive air suspension, dual-motor all-wheel drive, and custom 21-inch aerodynamic wheels.

The interior ecosystem introduces matrix LED ambient lighting, acoustic noise-canceling glass, heated and ventilated sustainable leather seating matrices, and a dual-zone climate management array.

Advanced engineering structures include an active thermal management circuit for high-capacity battery cell cooling, regenerative braking systems with one-pedal telemetry maps, and 150 kW DC fast-charging bus protocols.

Safety suites deploy 12 ultrasonic sonar sensors, 5 millimeter-wave radar modules, and a stereoscopic forward-facing camera system mapping lane geometry in real time.

Price

Base MSRP: £54,200. Premium Trim Package Supplement: £4,500. Total Estimated OTR: £58,700.
